

# Little Seedlings (Blossom)

By: Teneisha Johnson

(from the parable in Mark 4:30-32)

It's like a seed, a tender mustard seed

Or a flower still to blossom or bloom

God works His miracles in us every day

The individuals He patiently cultivates and grooms

Inspiration is like the parable of that tender mustard seed

It needs the right ingredients to grow

The right temperature, fertilizers, and quality tools

In our hearts, God continues to sow

A mighty tree, we long to be

With roots deep in the soil

So that when life brings its wind and rain

God will cover us with his sanctified oil

He is the vine, we are the branches

To Him we faithfully cling

Thus, ensuring our little flowers will forever blossom and bloom

In Summer, Autumn, Winter, and Spring
